

```
%define Serial Port
```

Warning: serial will be removed in a future release. Use serialport instead.

Serial Port Object : Serial-/dev/tty.usbmodem107219401

Communication Settings

Port: /dev/tty.usbmodem107219401
BaudRate: 128000
Terminator: 'LF'

Communication State

Status: closed
RecordStatus: off

Read/Write State

TransferStatus: idle
BytesAvailable: 0
ValuesReceived: 0
ValuesSent: 0

```
s = serial('/dev/tty.usbmodem107219401', 'BaudRate', 128000, 'DataBits', 8)
```

```
% Open port for communication
```

```
fopen(s)
